

**Background** This document will show you how to connect to the TAFENSW wireless network on a Mac OSX device.

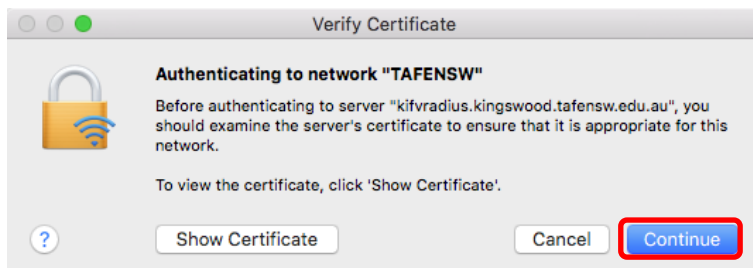

1. Select the Wireless icon found in the top right hand corner
2. Select "TAFENSW"

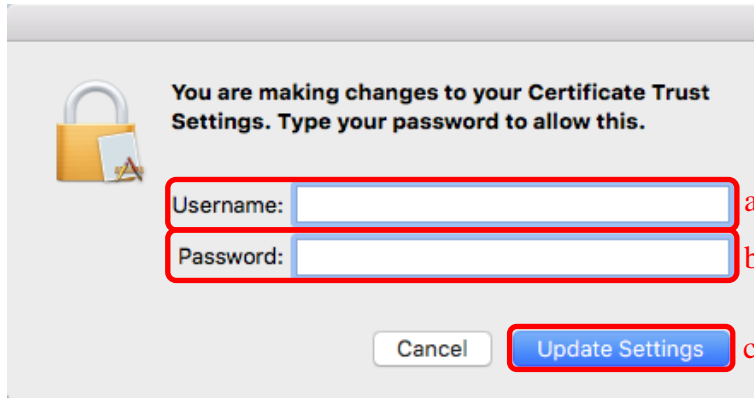

3. When prompted for network credentials enter *TAFE Portal Username*, EG: *Firstname.Lastname* and current password. Make sure "Remember this network" option is checked and then click on "Join"

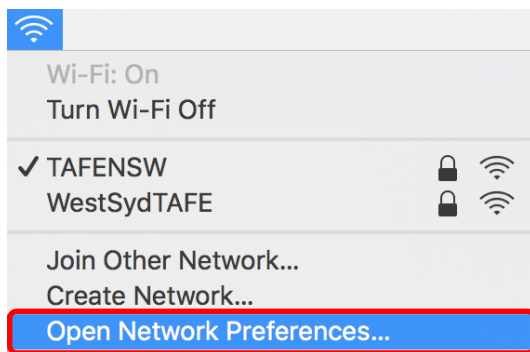

4. Click on "Continue" when the authentication prompt appears

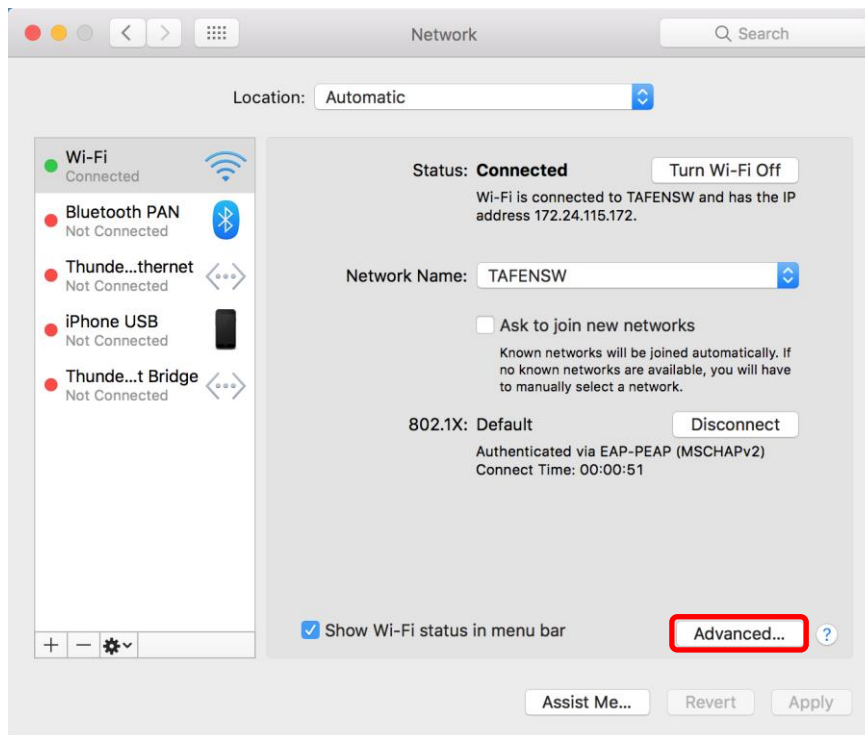

5. Enter the local administrator username and password and click on "Update Settings".

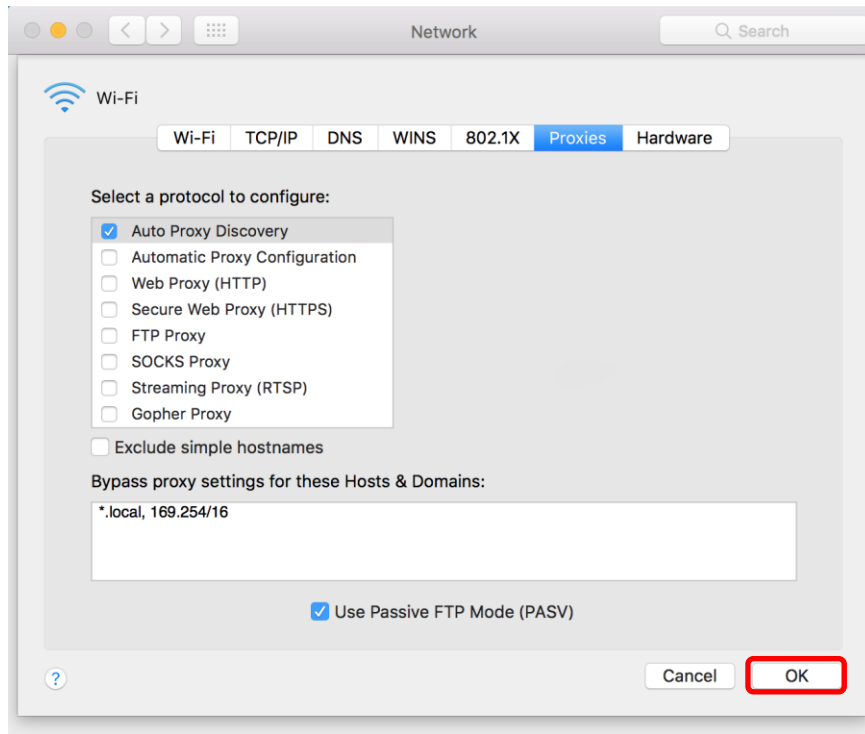

6. Select the wireless icon found on the top right hand corner again.
7. Select "Open Network Preferences..."

8. Click "Advanced..."

9. Select the "Proxies" tab, make sure "Auto Proxy Discovery" is checked and click OK

10. You are now connected to the "TAFENSW" wireless network
