

Background This document will show you how to connect to the TAFENSW wireless network on an iOS device.

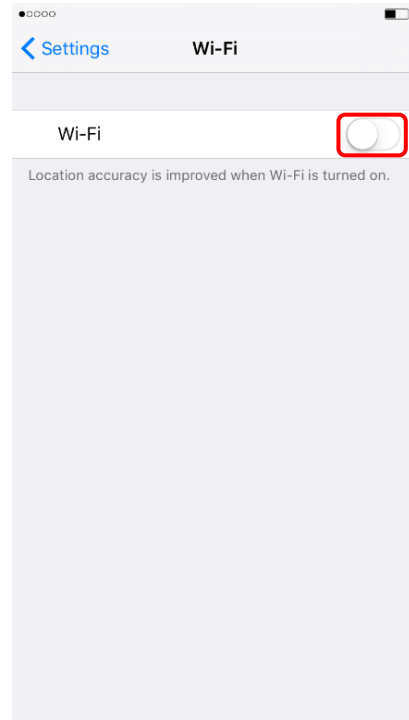

1. Select the "Settings" menu icon on your device

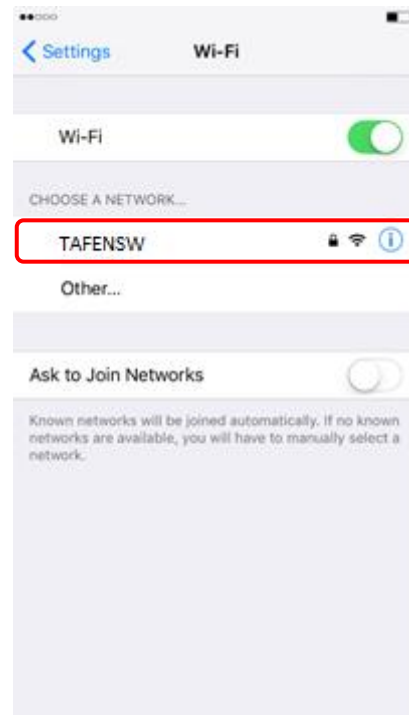

2. Select the "Wi-Fi" option

3. In Wi-Fi settings, turn Wi-Fi on

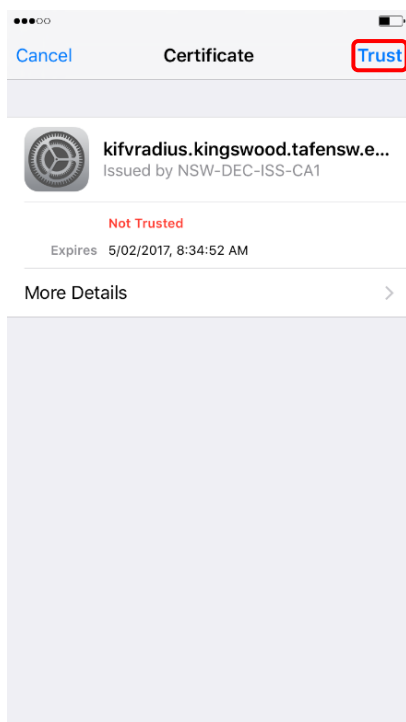

4. Select "TAFENSW" from the list of available wireless networks

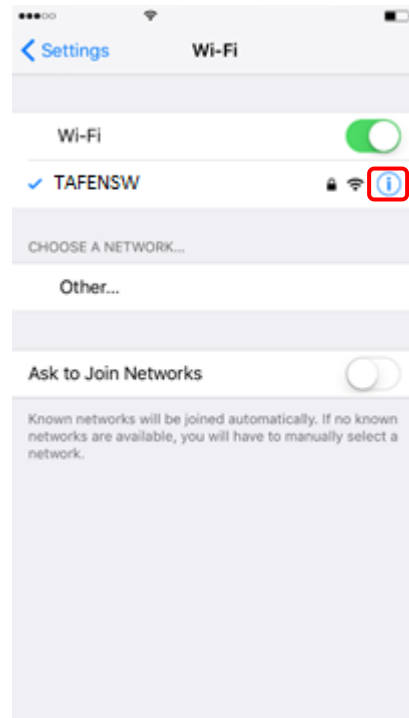

5. Enter in your TAFE Portal username and password and then select "Join"

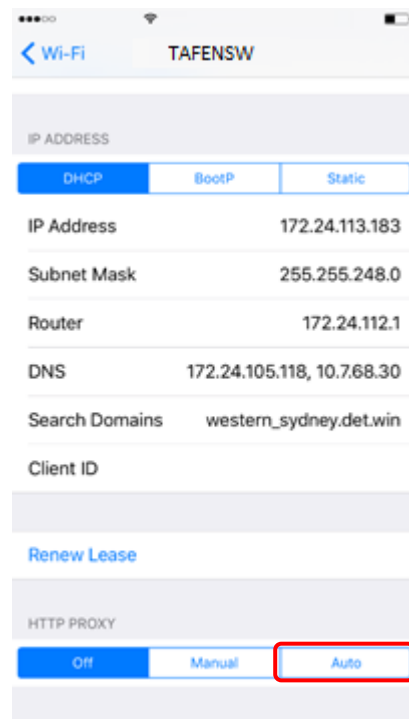

6. You will be prompted with a Certificate. You will need to select "Trust"

7. Select the information icon for TAFENSW

8. Scroll to be bottom and select "Auto" under HTTP PROXY

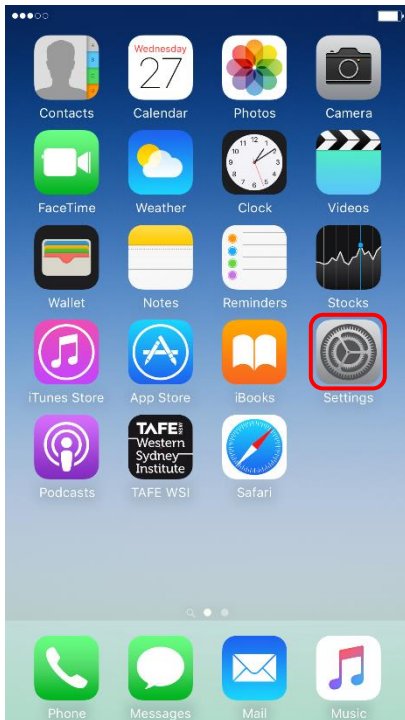

9. You are now connected to the "TAFENSW" wireless network

If you are unable to access the internet or use your apps, see below for further instructions.

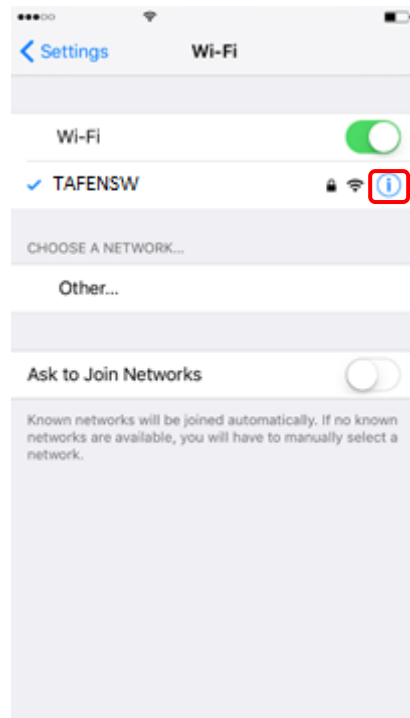

If you are still unable to access the internet or use your apps, you will need to enter in the proxy settings manually.

1. Select the "Settings" menu icon on your device

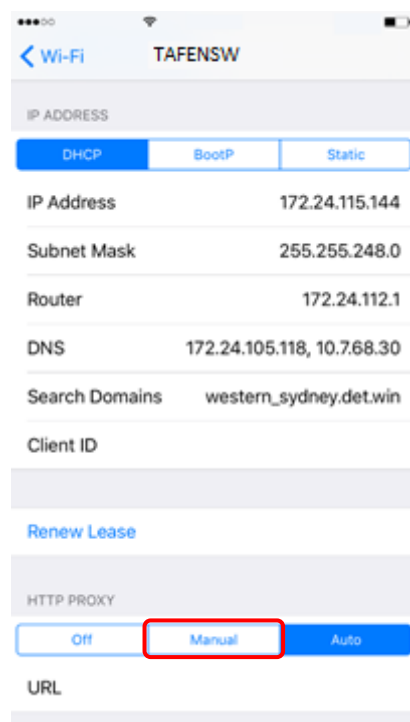

2. Select the "Wi-Fi" option

3. Select the information icon for "TAFENSW"

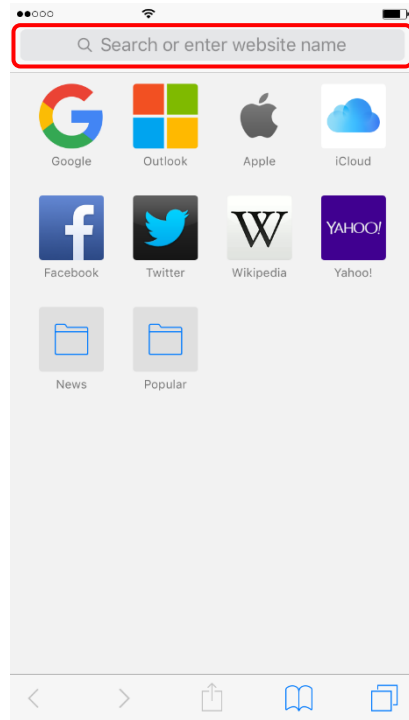

4. Scroll to be bottom and select "Manual" under HTTP PROXY

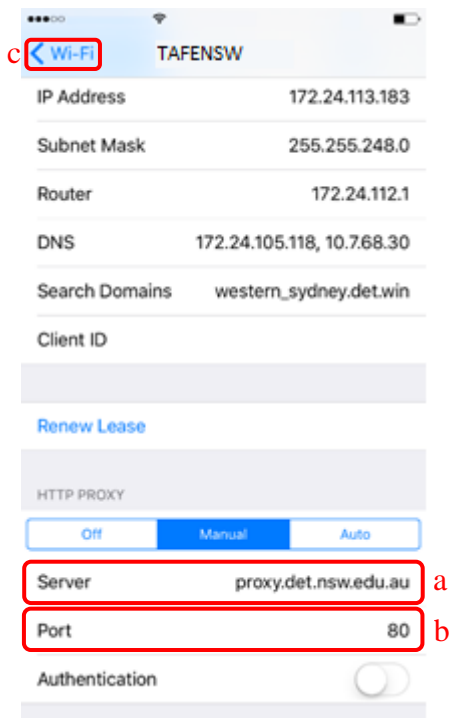

7. Enter in "google.com.au" in the address bar.

5. Enter "proxy.det.nsw.edu.au" in the Server field and "80" in the Port field and then tap on "Wi-Fi" located on the top left of the screen

8. If you are able to see the page display correctly, you have configured the proxy settings correctly.

6. To test connection, select the "Safari" app on your device
